

Tofuture Oy

PRESS RELEASE

2.12.2009

PRESS RELEASE
2nd December 2009

Future121 renamed as Tofuture Oy

Tofuture Oy has been registered as the new name for Future 121 Oy to reflect the company's renewed business focus. Tofuture Oy consulting services and software products are made for better future to support corporate responsibility performance management and sustainable development.

Tofuture Oy is a leading provider of integrated Sustainability Management software products including sophisticated tools for analyzing and communicating sustainability performance to different stakeholders. The services also cover consulting in sustainability strategies, organizing and processes for both product responsibility and corporate responsibility. Using Tofuture software the customers will increase the efficiency of data gathering and reporting and improve sustainable environmental and social business performance.

Tofuture Corporate Sustainability Management products and Solution Modules offer sophisticated functionality including Collection and Analysis of Greenhouse Gas Emission Data, Carbon footprint management, Health and Safety issues, Supply chain monitoring and Waste management up to a comprehensive reporting according to the leading disclosure framework the Global Reporting Initiative.

Tofuture customers are excellently positioned among the most ethical and responsible corporate citizens globally.

Tofuture Oy
